In Memoriam

Ludwig Voraue

As a result of an injury sustained in a fall, Mr. LUDWIG VORAUER, the founder and late owner and manager of this firm passed away October 19th, 1937.

The loss to his family and friends is great; a great deal of his work was left unfinished. Although he had attained much success in his enterprises he did not consider himself as satisfied, but continued, with unceasing efforts, to improve his business and to meet the demands of the buying public.

Now that this work is left to be continued by the surviving family, it shall be their aim to follow his example. The new management takes this means to thank the many friends and customers for their favors, and sincerely hopes that it will enjoy the confidence of the people and to be able to meet the demands of the customers.

TERMS AND CONDITIONS OF SALE

SPECIAL NOTICE—The prices named in this list cancel all previous lists and are subject to change without notice. All sales and contracts are made subject to previous sale and on condition that same shall be void should injury befall our stock from any cause beyond our control.

TERMS are cash with order. Orders for C. O. D. shipments should be accompanied by one fourth of the amount of the order. We cannot afford to carry accounts at the price we sell our high-grade stock for.

REMITTANCES are made most safely by Post Office or Express Money Orders.

SHIPPING SEASON opens about November 1st (for B&B stock a little sooner) and closes about March 15th (a little later for B&B stock) depending on weather conditions. We request customers to give definite shipping instructions regarding manner in which they wish goods shipped. In the absence of special instructions we use our best judgment, but without assuming responsibility. All shipments travel at risk and expense of purchaser. We cannot ship trees by mail.

PACKING is free of charge if cash accompanies order, otherwise it will be charged for at actual cost of material and labor used.

INSPECTION—A certificate of inspection accompanies each shipment leaving this nursery, certifying that our stock has been inspected by an authorized inspector of the State Dept. of Agriculture and was found to be free of insect pests and plant diseases.

SUBSTITUTION—If out of the varieties ordered we will substitute with equal or superior quality UNLESS INSTRUCTED NOT TO DO SO.

GUARANTEE—We give no warranty, expressed or implied, as of Life, Description, Quality, Productiveness, or any other matter of any Nursery Stock, Seeds or Plants that we sell. It is mutually agreed that our total liability for any errors, should stock prove untrue to name as labelled, shall be limited, upon satisfactory proof, to our replacing free of charge, and are in no way responsible for more than the original cost.

CLAIMS for any cause must be made promptly upon receipt of goods. We will not entertain claims after goods have been once accepted, or when report is not made in writing within five days after arrival of stock.

REFERENCES—Anybody desiring references about us may inquire at R. C. Dunn, the Chamber of Commerce or any business firm in Fredericksburg; or the State Department of Agriculture.

ORDER EARLY—It is very important to place your order early in order to avoid last minute rushes and annoyances. Please make orders not less than two dollars.

Address all communications to:

PECAN BELT NURSERY CO.,

Route 1, Fredericksburg, Texas

PECANS

Pecans are an investment that will remain for generations to come and the value and dividends will increase as the trees grow older.

Around the home Pecans make ideal shade trees, and the same time produce food for the family, or a welcomed income and are an ornament in a yard whether large or small.

Land planted with Pecans gains in value, and an income for the future is assured. Row crops can be planted between Pecan trees, or livestock may be turned into the grove after the trees have become larger thus always giving an opportunity for additional income. Planting Pecan trees is the most ideal plan for reforestation.

It is not necessary to invest a fortune in starting a Pecan orchard. Improved methods of propagation and the growing of large quantities has enabled us to offer our well-rooted trees at a price that is within nearly everyone's reach. Our trees must be seen in order to appreciate their value.

This "SUCCESS" Pecan Tree in Fredericksburg Has Netted A Large Yearly Income To Its Owner.

PRICES OF PECAN TREES

Size	1-9	10-49	50-299	300 & up
2-3 feet, each	\$.75	\$.65	\$.60	\$.55
3-4 feet, each	\$.85	\$.75	\$.70	\$.65
4-5 feet, each	\$1.00	\$.90	\$.85	\$.80
5-6 feet, each	\$1.25	\$1.15	\$1.00	\$.90
6-7 feet, each	\$1.50	\$1.40	\$1.30	\$1.25

8-10 feet, each	\$2.50	\$2.25	\$2.00	\$1.75

Selected Extra Large Specimen Trees \$3.00 to \$5.00 each.

Western Varieties

BURKETT—The leading variety for West Texas. Medium to large size, fills well, good flavor and prolific. 60% meat.

HOLLIS—Resembles the Burkett somewhat. Shell a little thicker. Fills well and is of a very desirable quality. Tree a good grower.

HALBERT—Trees inclined to be crooked when young, getting straighter with age. Early and heavy bearer. Medium size nuts, shell very thin, flavor excellent. 61% meat.

WESTERN SCHLEY—Similar to the Eastern Schley, but better adapted to dryer climates.

We have a few trees of the following varieties at prices quoted above: Kincaid, Daisy, Matsler and Texas Prolific.

TEXAS WONDER PECAN

A specialty of recent introduction. Nuts resemble the Schley, but are larger. Shell thin, cracks well. Kernel smooth, fine flavor. Tree a good grower, and has beautiful foliage. Not recommended for very dry climates. Prices 50c per tree higher than standard varieties.

ENGLISH

WILSON WONDER—This is the best adapted variety for this part of the country. The nuts are large, easy to crack. Tree is a fast grower and has very large

Eastern Varieties

SUCCESS—The most popular Eastern variety in Texas. Strong growing, healthy tree. The nut is very large and oblong. Kernels are smooth and easily removed.

DELMAS—Tree growing very vigorous and is a heavy bearer. The foliage is very beautiful and the nuts large. Gaining in popularity.

STUART—Good bearer. Nuts attractive. Ripening early. 48% meat.

SCHLEY—Large size, very thin shell, fills and shells out well. Very fine flavor. 60% meat.

WRIGHT—A newer variety gaining in popularity. Similiar to Texas Prolific, but larger. Good grower.

WALNUTS

leaves.

Size 4 to 5 feet.....each \$1.50
Size 5 to 6 feet.....each \$2.00

FRUIT TREES

Apples

RED DELICIOUS—The leading commercial Apple for this part of the country. Large, dark red, flesh crisp and juicy; the tree is very hardy and a fast grower.

YELLOW DELICIOUS—This Apple is similar to the Red Delicious except that it is a golden yellow. Fine flavor and a young and heavy bearer.

JONATHAN—Not as large as the Delicious, but a good bearer, fine quality and beautiful color.

Size	1-9	10-49	50 & up
3-4 feet, each	.40	.35	.30
4-5 feet, each	.50	.45	.40

Pears

KIEFFER—The most productive and reliable pear in the south. Fruit large, very juicy, quality good, especially adapted for canning. Ripens in September.

GARBER—A large, round, smooth pear. Very juicy, about three weeks earlier than Kieffer. Is ripe enough to eat at picking time.

LECONTE—Fruit large, bell shaped, pale yellow, very smooth. Ripens end of July or beginning of August. Tree not as resistant to blight as the other varieties. *

Size	1-9	10-49	50 & up
3-4 feet, each	.50	.45	.40

FRUIT TREES—(Continued)

Peaches

MAYFLOWER—Earliest variety. Medium size, white flesh, reddish skin. A good peach for home use.

ARP BEAUTY—A rival to Elberta. Fruit yellow, with bright red blush; firm, juicy and unusually good flavored. Semi-cling. Ripens early part of June.

GOLDEN JUBILEE—A large yellow, freestone peach resembling Elberta but ripens about middle of June. Recently introduced.

MAMIE ROSS—Fruit very large, nearly covered with a delicate carmine, flesh white. Semi-cling. Ripens from middle to end of June.

CARMAN—A large, white freestone with red cheeks. Good bearer. Ripens end of June.

J. H. HALE—Large, yellow overlaid with bright carmine; flesh, deep yellow; firm, fine grained; delicious flavor, freestone. Is nearly round as a ball and a fine canning peach. Ripens in July.

ELBERTA—Most widely known of all peaches. Attractive appearance, large yellow freestone. Fine for canning. Ripens in July.

ELBERTA CLING—Fruit is large, oblong, pointed with red cheek. Flesh yellow. Ripens in July.

AUGBERTA, or LATE ELBERTA—Yellow, resembling Elberta. Very prolific and fine quality. Ripens in August.

FRANK—This peach is gaining faster in popularity than any other variety. A fine, yellow, clingstone peach. A sure and heavy bearer. Very good for shipping.

BARBARA—A sister variety of the Frank, but is a freestone. Also yellow and a sure bearer. Good for canning and shipping. Ripens just after Frank.

HENRIETTA—Yellow clingstone. Fine for eating and for sweet pickles. Ripens in September.

Size	1-9	10-49	50 & up
2-3 feet, each	.30	.25	.20
3-4 feet, each	.35	.30	.25
4-5 feet, each	.40	.35	.30

Apricots

MOORPARK—Large yellow fruit, red blush on sunny side. Seed small, flesh very tender with an unexcelled flavor.

EARLY GOLDEN—Medium size, yellow, rich, juicy, with a delightful flavor. Ripens before Moorpark.

Size	1-9	10-49	50 & up
4-5 feet, each	.75	.60	.50

Plums

SHIRO—Fruit large, oblong, clear, transparent yellow, with very small seed. The earliest of Japanese varieties.

BURBANK—Large, purplish red, flesh deep yellow, very sweet and prolific. Ripens end of June or beginning of July.

SANTA ROSA—The finest of all Japanese plums. It has the fragrance of a prune and the seed is very small. When ripening, it first becomes a crimson with yellow flesh and gradually turns a deep purplish blue and the flesh a rosy scarlet. Ripens before Burbank.

SATSUMA. Large, well flavored with blood red flesh, skin bluish red, seed is very small. Ripens after Burbank.

Size	1-9	10-49	50 & up
3-4 feet, each	.40	.35	.30
4-5 feet, each	.50	.45	.40

Jap. Persimmons

TANE-NASHI—Very large, roundish conical. Bright red when ripe, flesh yellow, seedless, astringent until fully ripe, then one of the best.

YEMON—Large, flat, tomato-shaped; yellow with orange flesh. Seedless, good bearer.

Size	1-9	10 & up
3-4 feet, each	.60	.50

Figs

BROWN TURKEY—Medium, brown, very sweet and excellent. Hardy and very prolific.

MAGNOLIA—Fruit large, rich and sweet, yellowish brown. Hardy.

Size	1-9	10 & up
2-3 feet, each	.35	.30

Grapes

BRILLIANT—Pink to red. Berries large, globular. Clusters large, usually compact. A desirable grape, very sweet. Ripens early.

CARMAN—Berries medium size, black. Clusters very large and compact. Quality excellent; rich and sweet. A superior variety. Ripens in July.

EDNA—Very large clusters, white berries. Fine quality, sweet, muscat flavor. Ripens in July.

GOETHE—Berry very large, ovoid, pale pinkish red; highly flavored and very juicy. Ripens in August.

HERBEMONT—Vigorous grower. Clusters large, berries small to medium, brownish red. Very juicy with agreeable flavor. Ripens in August.

FERN MUNSON—Strong grower. Clusters medium to large. Berries globular, medium to large, dark purplish red to nearly black. Very juicy. Ripens early September.

Size	1-9	10-49	50 & up
1 year	.15	.13	.10
2 years	.25	.20	.15

Blackberries

HAUPT-BLACKBERRY—A sure and heavy bearer. Berries are very large.

	Ten Hundred Thousand		
Strong plants	\$1.00	\$5.00	\$25.00

ROSES

Red Roses

RED RADIANCE—Deep rose-red, big globular blooms on strong canes. Fast grower. Foliage healthy.

E. G. HILL—Bud very beautiful; flowers immense, unusually lasting, dazzling red, shading to dark crimson. Foliage abundant. Vigorous grower.

ETOILE DE HOLLANDE—Dark red overlaid with almost black velvet shadings. Very beautiful. Hardy.

F. S. KEY—Light crimson, full double. A good rose.

Pink Roses

PINK RADIANCE—Resembles the Red Radiance in every respect except that the color is a clear pink.

COLUMBIA—Unequaled for beauty. Lively, bright pink, sweetly scented. Vigorous grower.

DAME EDITH HELEN—Bloom very large, full double, lasting, intensely fragrant, bright pink.

BRIARCLIFF—Sport of Columbia. Blooms larger, deep rose-pink at center, lighter on outer petals.

SHELL PINK RADIANCE—A sport from Radiance, growth similar; color is a pleasing, soft, clear shell pink.

Yellow Roses

E. P. THOM—Buds golden yellow, opening to canary yellow.

GOLDEN DAWN—Buds bright yellow with tinge of red, opening to clear lemon yellow.

GOLDEN OPHELIA—Golden yellow in center, paling slightly on outer petals.

ROSLYN—Buds deep orange, opening to a rich golden yellow, the reverse of the petals remaining orange.

Two-Tone Roses

BETTY UPRICHARD—Brilliant copper-red buds, opening to brilliant orange-carmine, with a tint of salmon. Large flowers.

TALISMAN—Brilliant red and golden buds that open to beautifully shaped blooms of scarlet-orange and golden-yellow.

HOOVER—Large, cerise-pink, flame, scarlet, and yellow flowers. Hardy.

REV. PAGE ROBERTS—Copper-red buds opening to large, double, golden yellow blooms, stained outside with red.

White Roses

CALEDONIA—Lovely white buds, with a tint of lemon, opening into extra-large snowy white blooms. Very double. Fragrant.

EDEL—An enormous, very double, snow white flower of fine quality. Considered as one of the finest.

KAISERIN A. VICTORIA—Well-formed, creamy buds opening slowly to snowy white blooms. Called the queen of white roses.

2 yr. field grown, Each \$.30, ten \$2.50

Climbing Roses

We have several of the above varieties in Climbers.

Extra strong, Each \$.50 to \$.75

HOW TO PLANT

Trees and plants should always be set out as soon as received. If unable to do so, remove packing material and heel in the ground, covering thoroughly with moist soil.

When planting, make a rather large hole, fill up with good top-soil so as to set the tree the same depth it stood in the nursery. Only mellow top-soil should be used among the roots; it should be packed firmly, having the roots in their

natural position, which must not be damaged or bruised.

Trees must be trimmed and watered at planting. Manure or other fertilizer should not be used while planting, perhaps later. Trees are best protected against depredations by rabbits, etc., when the trunks are whitewashed with a solution of lime and blood in the Spring and Fall. Crushed glass scattered in the ground among the roots protects the trees against gophers.

Suitable Distances For Planting

Apples	20 to 25 feet
Pears	18 to 20 feet
Peaches	16 to 18 feet
Plums	16 to 20 feet

Grapes	8 to 10 feet
Blackberries	4 feet
Strawberries	1 foot
Pecans	40 to 60 feet

Number of Trees or Plants to Acre

1x1	foot.....	43,560
1½x3	feet.....	9,680
4x4	feet.....	2,722
10x10	feet.....	435
14x14	feet.....	223

20x20	feet.....	108
25x25	feet.....	69
40x40	feet.....	27
50x50	feet.....	17
60x60	feet.....	12
